

VISIONS OF THE FUTURE

Name: Date:

Directions: Identify a problem affecting the world today, and present a vision of the future based on it. Create a presentation that includes your responses to all of the following prompts. Presentations can be in a variety of formats including a short video, a podcast, a digital presentation, an infographic, or anything else you or your teacher might think of (and approve).

1. Define and explain the problem, and explain why you picked that problem.
2. Explain why it qualifies as a problem that affects the entire world rather than a small part of it.
3. Explain how this problem affects the world now, and how you think it will impact the world in 25 years and in 100 years.

VISIONS OF THE FUTURE

Name:

Date:

4. Explain the top three changes to the world that result from this problem now, in 25 years, and in 100 years. Use your understanding of the history of the Universe to create an evidence-based vision of the future.
5. Share research findings about the current status of the problem (if any exist).
6. Research and share predictions that have already been made about what this problem might look like in the future.
7. Discuss how your visions of the future have changed since Unit 1.
