

MAKING CLAIMS - GLOBALIZATION

Purpose

This activity asks you to practice your claim- and counterclaim-making skills. This will help you evaluate your ability to make strong, evidence-backed claims, and will also give you an idea of how well you understand globalization.

Process

In this activity, you will write two claims and one counterclaim about the environmental impact of globalization.

Take out the Making Claims – Globalization worksheet, and either individually or in pairs, write two claims about the environmental impact of globalization. For each claim, find two pieces of evidence to support the claim, using course materials or Internet research. Once you've written your two claims and provided supporting evidence, write one counterclaim that relates to one of claims. You should also provide two pieces of evidence to back up your counterclaim.

Be prepared to share your claims at the end of the class and see if you can figure out what types of claims everyone made (that is, causal, comparative, or those related to CCOT).
