# OER PROJECT & CLEVER

Students with an OER Project account

Having trouble finding OER Project from Clever? Before you can access OER Project from Clever, your teacher first must connect their OER Project account to Clever, add the OER Project application to your class's page, and assign an OER Project course to your class from the OER Project period listing page.
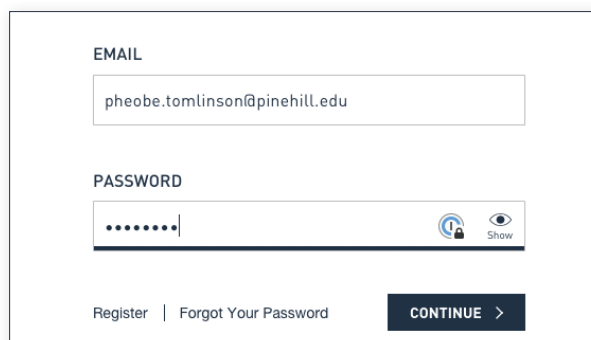

1. First, click on the OER Project application from your teacher's class page in Clever. You will be directed to the OER Project website to log in.

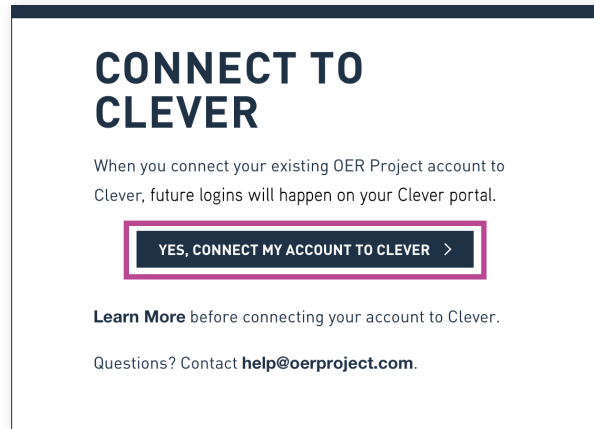

2. Next, click **Yes, I already have an account**.

3. Type your OER Project username and password you usually use into the required fields.
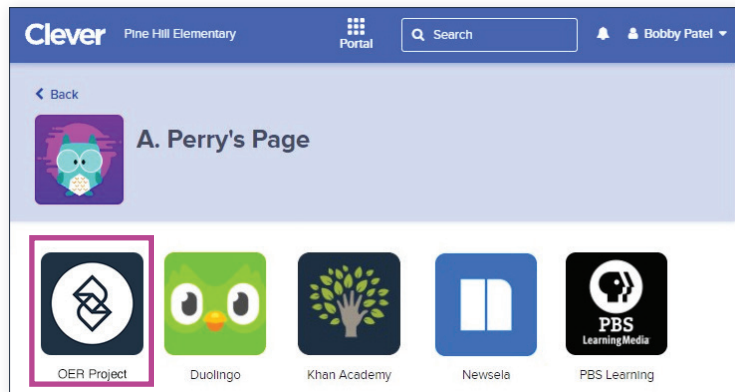

4. Lastly, click **Yes, connect my account to Clever** to finish the process.

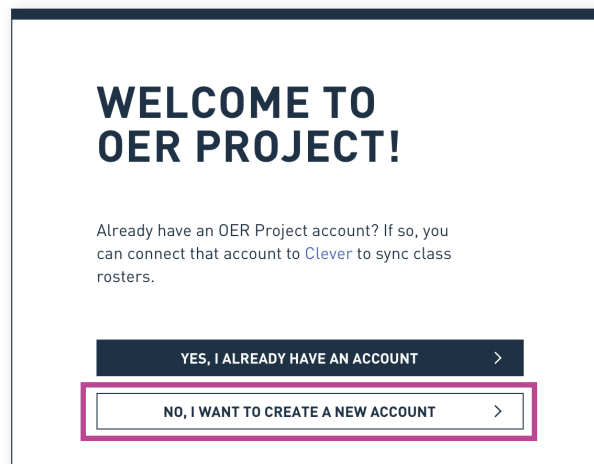

Students without an OER Project account

Having trouble finding OER Project from Clever? Before you can access OER Project from Clever, your teacher first must connect their OER Project account to Clever, add the OER Project application to your class's page, and assign an OER Project course to your class from the OER Project period listing page.
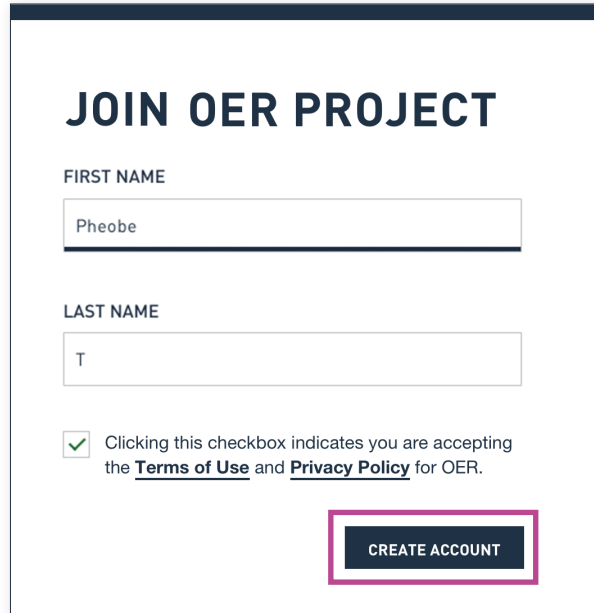

1. First, click on the OER Project application from your class page in Clever. You will be directed to the OER Project website to create an OER Project account.

2. Next, click **No, I want to create a new account.**

OER PROJECT

3. Your first name and last initial will automatically appear in the fields on your screen. If you need to change your name (for example, if another student in your class has the same first name and last initial as you), you can do so now by clicking into the appropriate field and typing the desired change.
