Directions: Write the topic of your comparison at the top of the chart, then complete Part 1 and Part 2.

Part 1 – Framing and Connecting

1. Write the topic of comparison at the top of the chart, and then add the cases you're comparing and their associated time periods. The number of cases will likely be different each time you use this tool, so just add or delete chart columns as needed.
2. Fill out the top half of the chart using the resources provided for this comparison. In what ways do each of these connect to the frames? Your teacher may assign additional questions.

Part 2 – Analyzing

1. Look across each case. What are the similarities? Write about them in the space provided.
2. Look across each case again, this time looking for differences. Write about any differences in the space provided.
3. If you were going to write two essays about the similarities and/or differences you've identified for this topic, what are two thesis statements you might use? Write them in the spaces provided.
