HOW TO SET UP A CLASS

Create your new class

1. Click on your name to expand the profile menu and then click on **My Classes.**

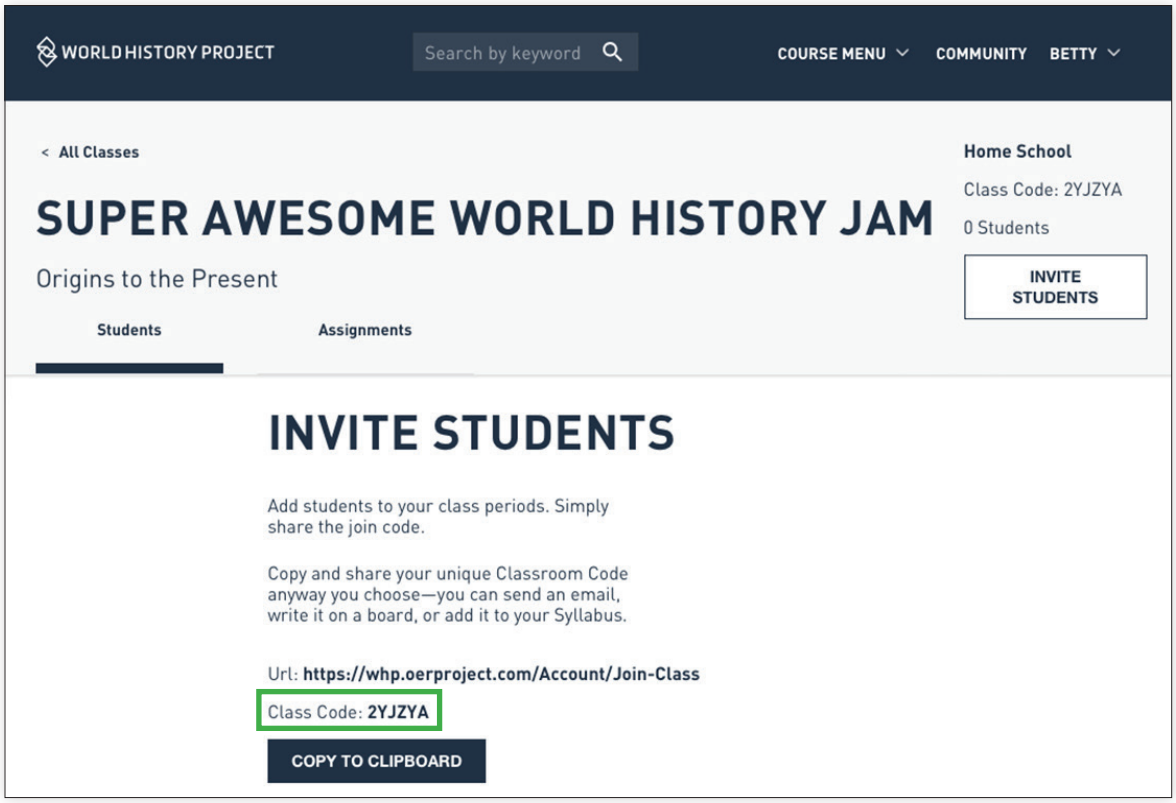

2. Click on the **+ NEW CLASS** button to create a class. The **Add New Class** dialog box opens.
3. Name your class (we suggest something like *Super Awesome World History Jam,* but that might be trying too hard).

4. Select either "**Origins to the Present**" or "**1750 to Present**" then click the **Add New Class** button. Congratulations! Your new class is created.

Invite students to your new class

1. The **INVITE STUDENTS** information is now available. Take note of the **Class Code**.

2. Direct your student to visit https://whp.oerproject.com/Account/Join-Class.
3. They will then enter the class code on your screen and they are ready to roll!
